

RECITAL 2005 TESTIMONIALS

“Spencer is already talking about when he will be a teacher at your school so he can stay with you forever. I hope you know how much impact you have on some children's lives, for him it's immense.”—B. Brooks

“I just wanted to let you know how much I enjoyed the recital. Each year it is a treat to see what you will come up with, and I am always amazed. Each year I think that was the best one and then you do something fun and innovative the next year. Do you dream about choreography and sets and lighting and color? The red Pointe shoes under the screen were so neat and then seeing the silhouettes of the dancers. I also loved the "stomp" chefs and the pieces with multiple classes together, smiling and enjoying their dances. I really can't get over the choreography. So beautiful and layered. I cry every year. To see my own child, who started when she was one of the little tiny ones, but also to see all the other dancers who I have watched grow over the years.”—H. Russell

“On Sunday afternoon, I had the privilege of attending your dance program. The choreography was exceptional; the scenery well done; the dancing was entertaining. Your soloists, were beautiful and their programs well done.”--unknown
